

Volume 64

Club Newsletter Editor - Walt S.

Issue 8

My TopFlite AT-6 Texan. I named it ***"Slowly But Surely"***. I started building this kit six years ago in 2013... typical for me to take so long to complete. I blew the dust off it once again a few weeks ago and I am back building and thoroughly enjoying this airplane once again. I became side tracked here and there when a few other planes caught my eye. I now have all of the radio gear needed, the covering, Robart pneumatic retracts and a good stock of Monokote and Ultracote. I also have a new Saito 100 that will go into plane in just a few weeks. The plane will weigh in around 8.5lbs. See additional pics on page 3. Walt

# Mile Hi R/C Club

**Fly-In Saturday August 3, 2019**

**Open flying for all types of Model Aircraft**

**Pilot Registration at 8:30 AM**

**Pilot fee \$15 Includes Lunch**
